

# Become a Friend of Shepherd's Corner Ecology Center

Friends of Shepherd's Corner directly support our mission to recreate the lands' wholeness by rediscovering the life-giving harmony between the people and the land. Here, people of all backgrounds can connect with the natural environment, reflect on the web of life, and, as members, support eco-justice efforts that will bring hope to future generations. Your support as a Friend of Shepherd's Corner will help provide:

- Over 23,920 pounds of our annual harvest donated over the past 9 years to HEART (Reynoldsburg), GRIN (Gahanna), Faith Mission, the Griffin Center at Christ the King parish and other groups.
- Ongoing maintenance of 160 acres of environmentally sustainable and diverse habitats, permaculture food pantry garden, greenhouses, trails and labyrinth
- Care and keeping of animals under a no-kill policy, including chickens, sheep, and llama.
- Materials and staffing for a variety of programs for children and adults
- Preservation of the bio-diversity of the land
